Mabel-Canton School District #238
COVID-19 Summer Programming District Facility Use

We are committed to providing a safe and healthy environment for all. To ensure that, we have developed the following Preparedness Plan in response to the COVID-19 pandemic. All staff, coaches, advisors and stakeholders share the responsibility of implementing this plan. Our goal is to mitigate the potential for transmission of COVID-19 in our facilities, and that requires full cooperation among Mabel-Canton staff, program participants and visitors. Only through this cooperative effort can we establish and maintain the safety and health of our staff and participants, renters and facility users. In the event these expectations are not followed, individuals/organizations may lose facility use privileges.

Available facilities during Summer programming:
- Gyms
- Weight room
- Football fields (game & practice)
- Summer school (elementary computer lab and classroom)

Health Screening
Our Preparedness Plan follows the Centers for Disease Control and Prevention (CDC) and Minnesota Department of Health (MDH) guidelines, as well as federal OSHA standards related to COVID-19.

Screening of individuals upon arrival. Individuals or anyone in their immediate family (living in the same home) reporting the following symptom(s) will not be permitted into building or on school grounds and will be asked to return home:
- Fever or chills (100.4 or above)
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

When a student or supervisor develops any symptoms of illness consistent with COVID-19 in a school setting:
- Isolate the person in a separate room while they wait to be picked up or until they are able to leave the facility on their own. Ensure that they have hygiene supplies available, including a cloth mask, facial tissues, and alcohol-based hand rub.
- Remind staff who are monitoring the student or staff member with symptoms to practice social distancing when possible.
- Close off the space used for isolation after the ill person leaves. Open it after proper cleaning and disinfecting.
- Clean and disinfect high-touch surfaces, focusing on areas where the person is known to have been and items they have touched (e.g., individual desk, cot, shared equipment).
- Wear gloves when cleaning, and wash hands after removing gloves.

**Infection Prevention Measures**

(Weight Room, Athletic Practices and Summer School)

**Weight Room**

1) All athletes will enter through Main Office/Gym door
2) All athletes will use hand sanitizer immediately upon entering the building
3) All athletes will have temperature taken and recorded immediately upon arriving (Anyone with a temperature over 100.0 Fahrenheit will not be allowed to participate and will be sent home)
4) All athletes will be required to lift at their assigned 30-minute time slot. If they miss their assigned slot for that day, they will not be allowed to join another group.
5) All athletes will be required to bring a water bottle marked with their own name to the weight room. The drinking fountains will only be available for refilling water bottles and not for drinking purposes. No one is allowed to share water bottles.
6) All athletes are required to remain in the weight room. They are allowed into the high school gym only if they are doing plyometric exercises. (No balls are allowed to be used other than medicine balls used for weight training purposes)
7) Lifting groups will be limited to no more than 7 people, including the supervisor.
8) At the conclusion of the lifting period, all athletes must wipe down all equipment that was used during that period with the sanitizing wipes that will be provided.

**Athletic Practices**

1) All athletes will enter through Main Office/Gym door
2) All athletes will use hand sanitizer immediately upon entering the building
3) All athletes will have temperature taken and recorded immediately upon arriving (Anyone with a temperature over 100.0 Fahrenheit will not be allowed to participate and will be sent home)
4) Athletes will not practice in groups larger than 25 people, including the coach.
5) All athletes will be required to bring a water bottle marked with their own name. The drinking fountains will only be available for refilling water bottles and not for drinking purposes. No one is allowed to share water bottles.

**Summer School**

1) All students will enter through Main Office/Gym door
2) All athletes will use hand sanitizer immediately upon entering the building
3) All athletes will have temperature taken and recorded immediately upon arriving (Anyone with a temperature over 100.0 Fahrenheit will not be allowed to participate and will be sent home)
4) Summer school classrooms will be limited to no more than 10 individuals per room, including the teacher/paraprofessional.
5) All students will be required to bring a water bottle marked with their own name. The drinking fountains will only be available for refilling water bottles and not for drinking purposes. No one is allowed to share water bottles.
6) At the conclusion of each summer school day, all students must wipe down their computer stations with the provided sanitizing wipes and students are required to stay at the same computer station throughout their summer school session.

**Coach and Supervisor Duties**

1) It will be the athlete’s responsibilities to wipe down all equipment at the end of each practice; however, the supervisor or coach is responsible to make certain that job is completed correctly.

2) Responsible for being at the entrance and taking attendance and temperatures of each student as they enter the building.

3) If any student has a temperature over 100.0 Fahrenheit, the coach/supervisor will notify the student that they must leave and go home.

**Respiratory Etiquette**

The district is following MDH recommendations. MDH does not require face masks, but recommends wearing cloth face coverings in campus settings where other social distancing measures are difficult to maintain.

Individuals are instructed to cover their mouth and nose with their sleeve or a tissue when coughing or sneezing and to avoid touching their face; in particular their mouth, nose and eyes, with their hands. They should dispose of tissues in the trash and wash or sanitize their hands immediately afterward.

**Social Distancing**

Social distancing is being implemented in district facilities in the following ways:

Total number of groups using the building or grounds will be limited depending on building and locations requested, group size and state guidance. Prior to scrimmages, athletic coaches must contact the Activities Director with scrimmage details and confirm that only athletes and coaches will be present at the event and no more than 25 will be in attendance.

Activity start and end times will be staggered to minimize the number of people entering the building / grounds at the same time and to allow time for cleaning between users as needed. Groups over 10 (when allowed) may be assigned staggered entry times to reduce the number of participants from arriving at the same time.

Spectators will not be allowed.

Must operate under the MDH Stay Safe MN Guidelines Phase III (beginning June 10), until notified by the Activities Director.

**Cleaning**

Regular cleaning practices are being implemented, including routine cleaning and disinfecting of the instructed entrance and exit. **Entrance door will be the Main Office/Gym door.** These duties will be performed by building custodial staff.
**Personal Food and Drink**
To help stop the spread and protect our visitors and staff, Shared/communal food and/or drink is not permitted on school property (buildings and grounds).

**Supervisor Screening and Procedures**
Supervisors will be required to complete a self assessment at home immediately before leaving for practices located at Mabel-Canton Schools.

Self-Assessment: [https://www.health.state.mn.us/diseases/coronavirus/facilityhlthscreen.pdf](https://www.health.state.mn.us/diseases/coronavirus/facilityhlthscreen.pdf)

If they are experiencing any symptoms of COVID-19 they will be required to remain home, find a supervisor replacement and should contact their healthcare professional. Students/supervisors may return to Mabel-Canton Schools when they meet the conditions outlined in the following section:

**Returning to the Facility after Illness**
- Please follow the [decision tree](https://www.health.state.mn.us/diseases/coronavirus/facilityhlthscreen.pdf) from MDH
- If you or someone has/had lab confirmed COVID-19 you can return when these three (3) things have happened:
  1. It has been at least 10 days since the start of symptoms. AND
  2. Fever free for at least 72 hours prior to return without the use of fever reducing medication AND
  3. All other symptoms have improved

**Illness Tracking**
- Supervisors are required to alert the District if there is a positive test by any group participant who has been in/on school grounds in the 14 days prior to their diagnosis
- Supervisors will be required to keep rosters, take attendance and keep daily records from all activities, should the information be needed by healthcare professionals for tracking purposes.

**Communications and Training**
This plan is available to the public on the Mabel-Canton School website and relevant information will be communicated to program participants.
